- If you cannot hear please select *Audio* on the top left and adjust volume.

Agenda

- Introductions
- Airport Master Plan
- Focus Group Objectives
- Facility Discussions

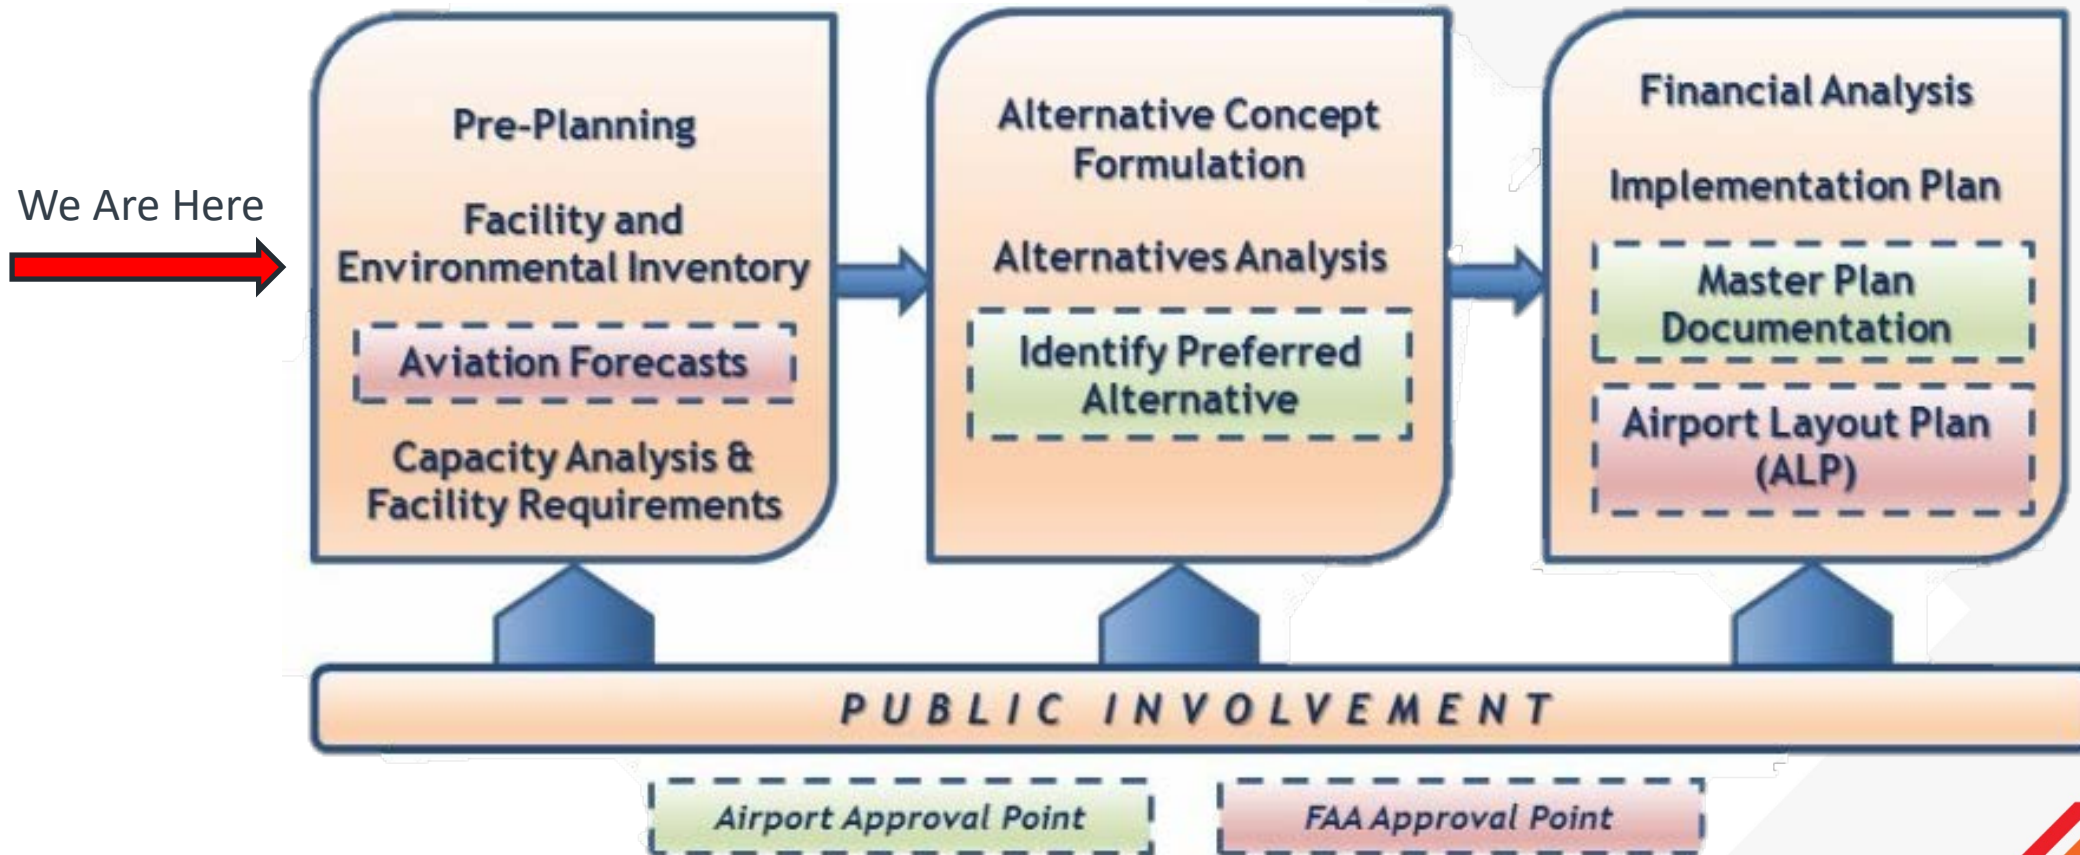

ENGINEERING, REIMAGINED

Airport Master Planning

- “Road Map” for meeting aviation demands
- Preserves flexibility to respond to the future
- Allows airport to cost-effectively keep pace with aviation growth
- Considers environmental and socioeconomic impact of development
- Why is a Master Plan Update needed now?
 - Last Airport Master Plan completed 2014 but forecasted numbers have been surpassed
 - Continuity of operations – develop a plan to eliminate or minimize closure time of RAP’s primary runway.
Examples: Reconstruction, Aircraft Incidents, etc.

Airport Master Planning

Focus Group

- Participate in two meetings, each anticipated to last an hour.
- Meeting 1 (today)
 - Verify existing operations
 - Identify key issues & provide recommendations for improvements.
 - Let us know of any upcoming/expected changes in the way you operate that should be considered for this plan
- Meeting 2 (late summer/early fall)
 - Discuss draft alternatives
 - Provide any updates on needs or expected changes

ENGINEERING, REIMAGINED
