# Airport Master Plan

- “Road Map” for meeting aviation demands
- Preserves flexibility to respond to the future
- Allows airport to cost-effectively keep pace with aviation growth
- Considers environmental and socioeconomic impact of development
- Why is a Master Plan Updated needed now?
  - Last Airport Master Plan completed in 2014 but forecasted numbers have been surpassed
  - Continuity of operations – develop a plan to eliminate or minimize closure time of RAP’s primary runway. Examples: Reconstruction, Aircraft Incidents, etc.

# Airport Master Plan

# Focus Group

- Participate in two meetings, each anticipated to last an hour.
- Meeting 1 (today)
